SIMPLE ONE-TOUCH FUNCTIONS

At Toshiba, our long history of industry-leading innovation has led to some of the most powerful, versatile MFPs available. Now, we're taking that impressive functionality to the next level with Elevate—the easy-to-use, super efficient user interface. Your MFP's user interface can be tailored to suit the way your business operates, simplifying both common and sophisticated tasks.

With Elevate, users can quickly learn how to perform your automated custom one-touch functions and newly discovered features with minimal effort. Need to scan to an automated workflow or copy an odd-sized, mixed-original job, Elevate helps you make these complicated tasks as simple as the touch of a button. Elevate also helps increase document security by simplifying the process of protecting printed and scanned documents.

A HOLISTIC APPROACH TO SECURITY

To best tackle your security vulnerabilities, Toshiba takes a unique, comprehensive approach to safeguarding your print and document environments. We look at security in your environment across three areas: product, process and people.

PRODUCT SECURITY

Starting at the product level, we deliver an in-depth defense across four areas:

1. INSTALL TO END-OF-LIFE DEVICE SECURITY

- Self-encrypting hard drive
- Firmware & BIOS whitelisting
- End-of-Life automatic data erase

2. PHYSICAL AND DIGITAL ACCESS PROTECTION

- Restrict who, what, where
- Manage centrally and by role
- Monitor and audit in real-time

3. DOCUMENT LIFECYCLE DEFENSE

- Secure document capture
- Encrypt information storage
- Secure document tracking & delivery

4. FLEET-WIDE SECURITY ADMINISTRATION

- Remote monitoring & management
- Proactive alerts & automatic remediation
- Policy-based security management

SOFTWARE SOLUTIONS

TOSHIBA SOFTWARE AND DEVICE MANAGEMENT

Toshiba understands the multifunction product is just the beginning. That's why we leverage our leading-innovation technology with software and programs that help you increase efficiency and eliminate waste.

SOFTWARE SOLUTIONS

PRINT MANAGEMENT

Our Print Management Services are designed to help you take control of your fleet of devices and make smart decisions that will reduce costs, enhance collaboration, manage documents more efficiently, control access, strengthen security, manage consumables and provide ongoing support and maintenance.

DOCUMENT MANAGEMENT

This category provides the capability to manage, share and secure paper, electronic and digital documents. These features enable you to control costs, increase efficiencies and better communicate, while reducing risk and helping to meet higher standards of compliance and business continuity.

DEVICE MANAGEMENT

Includes software-based solutions and services focused on reducing the cost and improving the return on investment for deploying networked office equipment. Such technologies provide automated device management-based services and simplify the process of managing and servicing network-based output devices.

OUTPUT MANAGEMENT

Includes solutions for tracking, measuring and monitoring document output to workgroup office equipment, as well as security-based solutions that prevent unauthorized access to output devices and related information. Additional solutions in this category include technologies that intelligently process and format legacy and database-driven streams of information to distributed workgroup environments, providing support for advanced distributed printing applications.

CAPTURE & WORKFLOW

This category includes scan-based document capture and routing applications as well as front-end workflow applications, particularly those enabled via a networked workgroup multifunctional peripheral or scanner.

DOCUMENT MANAGEMENT

DocuWare, a global ECM leader, offers complete document management via cloud, on-premise or a hybrid-cloud solution. Known for highly secure, scalable, easy-to-integrate and future-proof technologies, DocuWare is available in 18 languages.

KEY BENEFITS

- Automate business process for increased productivity and improved customer service
- Digitally handle workflow for optimum efficiency and transparency
- Appropriate for all document types regardless of their source
- Compatible with Toshiba multifunctional devices
- Easy to install and train on
- Deployment options included on-premises and cloud

DEVICE MANAGEMENT

e-BRIDGE Cloud Connect works behind the scenes to ensure your Toshiba products are giving you the most for your money. Natively built into all new Toshiba e-STUDIO products and available as a firmware update on most previous models, e-BRIDGE Cloud Connect is simple to implement and secure, allowing you to quickly reap the benefits. By gathering data and transmitting via the Cloud, e-BRIDGE Cloud Connect ensures improved management and faster response time.

KEY BENEFITS

- Continuous status of your devices
- Make adjustments on the fly, remotely
- Manage devices to adhere to company or regulatory standards
- Remotely reconfigure entire fleet with one policy or configuration
- Remote firmware updates during off-peak hours
- Data backup functions allowing settings to be quickly and easily restored
- Meter reads are automatically taken at set intervals
- Toner alerts are transmitted, triggering automatic supplies delivery

TopAccess

TopAccess offers real-time device management and displays job status from any network computer. As soon as any event occurs, such as when paper or toner runs out, or whenever maintenance is required, it will instantly alert the user. Administrators can also use TopAccess to configure the device/network settings, install embedded applications, set counter information or limit and control usage via authentication settings.

KEY BENEFITS

- Web-based remote device management tool for Toshiba MFPs
- Graphical view of MFP configuration and settings
- Manage network, print, copy, scan and fax settings
- Create and manage address book, templates and user authentication
- Email alerts for administrator and/or user intervention

OUTPUT MANAGEMENT

PaperCut MF embedded print management software tracks and controls print, copy, scan and fax on Toshiba MFPs. Monitor printing, manage quotas, implement charging, secure confidential documents with hold and release queues for precise management of device resources. PaperCut Pocket and PaperCut Hive offer print management in the cloud. Supporting all operating systems, PaperCut is used by more than 50,000 sites across education, government and business in 25+ languages.

- Secure confidential documents and release anywhere via Find Me printing
- Define user access rights, page costs and quotas
- Control account, bill or charge every copy, print, scan and fax with ease

OUTPUT MANAGEMENT

Pharos Systems has integrated Pharos Print Management software with Toshiba MFPs. The resulting iMFP (integrated MFP) harnesses the power of Pharos Blueprint Enterprise and Pharos Uniprint in an easy-to-implement, manageable and highly customizable way for you to understand exactly what your company or university is spending on print and gives you the tools to control print spending.

KEY BENEFITS

- Reduce printing costs and eliminate waste
- Secure your printing infrastructure by requiring ID card print release
- Enhance printing flexibility by enabling secure print release at any device
- Enable responsible printing via policy print rules and notifications

Mobile Print Solutions

With the prevalence of employees and visitors bringing their own mobile devices to the office, mobile printing is more popular than ever and becoming a necessity for the office. Toshiba offers multiple ways to support your mobile printing needs, providing flexibility while increasing productivity. Toshiba e-BRIDGE Print & Capture is a mobile application that allows customers to print and scan documents from Toshiba MFP to customer's mobile devices including multiple cloud storage locations.

KEY BENEFITS

- Print from anywhere at any time
- Print from a PC, Mac, iOS or Android device without the need of a print driver
- Supports BYOD
- Increases productivity
- Provides flexibility

CAPTURE & WORKFLOW

Document Conversion Service helps companies digitize existing paper documentation in bulk. Customers send in boxes of papers and Docufree experts scan and index the data into digital format.

KEY BENEFITS

- Jumpstart digital transformation
- Remove paper from your business
- Make information as mobile as your workforce
- Easily protect and govern critical information
- Eliminate information capture complexity

Drivve | Image streamlines digitization and document routing processes with advanced, user-friendly, customizable tools for automated document capture, processing, and secure distribution.
